Это страница документации Модуль:Authority control.

This Lua module is used on many pages and changes may be widely noticed. Test changes 40px in the module's /sandbox or /testcases subpages, or in your own module sandbox. Consider discussing changes on the talk page before implementing them.

40x40px This module is subject to page protection. It is a highly visible module in use by a very large number of pages, or is substituted very frequently. Because vandalism or mistakes would affect many pages, and even trivial editing might cause substantial load on the servers, it is protected from editing.

40x40px This module uses one or more Wikidata properties; see § Parameters for details.

30px This module depends on the following other modules:
- Module:Navbox
- Module:ResolveEntityId
- Module:No globals

This module contains the code of the {{Authority control}} template. See its documentation.

□

Parameters, Wikidata properties, and tracking categories

Ошибка Lua в Модуль:Authority_control на строке 983: too many expensive function calls.

Additional tracking categories

This module also implements the following hidden tracking categories:

- Category:Pages with red-linked authority control categories (0) – error category to identify missing categories
- Category:Articles with deprecated authority control identifiers (0) – fix/migrate/remove deprecated IDs
- Category:Articles with suppressed authority control identifiers (0) – tracking only (no error)
- Category:Articles with multiple identifiers (0) – tracking only (no error)
- Category:Pages using authority control with parameters (0) – migrate IDs to Wikidata, if possible (no error)
- Category:Pages using authority control with parameters different on Wikidata (0) – determine/remove incorrect IDs & migrate to Wikidata
- Category:Pages using authority control with parameters all matching Wikidata (0) – template parameters may safely be removed

Number of identifiers

- Category:AC with 0 elements (0)
- Category:AC with 25 elements (0)
- Category:AC with 26 elements (0)
- Category:AC with 27 elements (0)
- Category:AC with 28 elements (0)
- Category:AC with 29 elements (0)

- Category:AC with 30 elements (0)
- Category:AC with 31 elements (0)
- Category:AC with 32 elements (0)
- Category:AC with 33 elements (0)
- Category:AC with 34 elements (0)
- Category:AC with 35 elements (0)
- Category:AC with 36 elements (0)
- Category:AC with 37 elements (0)
- Category:AC with 38 elements (0)
- Category:AC with 39 elements (0)
- Category:AC with 40 elements (0)
- Category:AC with 41 elements (0)
- Category:AC with 42 elements (0)
- Category:AC with 43 elements (0)
- Category:AC with 44 elements (0)
- Category:AC with 45 elements (0)

State parameter

- Category:AC using state parameter: collapsed (0)
- Category:AC using state parameter: expanded (0)
- Category:AC using state parameter: autocollapse (0)
- Category:AC using state parameter: other (0)
