

# Шаблон:Module rating

Версия для печати больше не поддерживается и может содержать ошибки обработки. Обновите закладки браузера и используйте вместо этого функцию печати браузера по умолчанию.

This module is rated as ready for general use. It has reached a mature form and is thought to be relatively bug-free and ready for use wherever appropriate. It is ready to mention on 40x40px help pages and other Wikipedia resources as an option for new users to learn. To reduce server load and bad output, it should be improved by sandbox testing rather than repeated trial-and-error editing.
